ROLLINGDOG®

ROLLINGDOG Tools
-Founded in 2008
-Headquartered in Ningbo, China

ROLLINGDOG Tools is driven by continuous innovation, with comprehensive competitiveness of R&D, branding, production and operations.

We focus on the painting tool industry, and are committed to providing high-quality, high-efficiency, and comfortable-to-use tools.

We adhere to a customer-centered business principle, and conduct in-depth research and development to make sure our products meet market demands. Each year we will invest 3-5% of sales in R&D.

Our goal is that the company, our customers, and our employees grow together, sharing long-term returns while achieving long-term win-win results.

BRAND ORIGIN:

The ROLLINGDOG name came from the founder of the company David Zhang. He is an animal lover, especially dogs. Back in the year 2010 he had a strong and energetic dog named Bean that was very loyal, passionate and smart.

After several years running his own company focused on painting tools, he decided to create his own brand. He wasn't sure what name to use but soon found inspiration from his loyal friend Bean.

Each day David would return home from work, Bean would be filled with excitement and roll around on the ground happily. This scene reminded David of the way a paint roller rolls on the wall.

Thus, the ROLLINGDOG brand was born.

THE MEANING OF ROLLINGDOG

Rolling :Represents a kind of spirit, constantly rolling forward, not giving up. In addition, as one of the company's core products are paint rollers, it seems fitting.

Dog : Dogs are known as "man's best friend", but can also be used as a tool for a variety of tasks such as protection, hunting, and guiding. We feel this is a good match for our company, as we strive to provide tools that will be a person's "best friend" for painting and other home renovations & repairs.

MOTTO: KEEP ROLLING

Only by seeking change for improvement and rolling forward can we achieve our greatest goals. History shows us that if you remain unchanged and cannot evolve rolling forward with time, you will eventually be eliminated. The spirit of our motto "keep rolling" urges us to make continuous improvement of product quality, research and development, and service as our lifelong direction. ROLLINGDOG strives to keep rolling until we reach our maximized global sales capacity.

ROLLINGDOG TRADEMARKS

ROLLINGDOG has registered trademarks in 77 countries around the world, and is still increasing every year.

For new cooperative customers, if we do not have a local registered trademark, as long as the first order reaches more than 50,000 US dollars, we will arrange for the local trademark registration without the customer bearing the cost.

ROLLINGDOG's global presence:

The ROLLINGDOG brand has now entered 6 continents around the world, with sales in 58 countries.

Product Design and Development Advantages

Innovation is a core value at ROLLINGDOG. We have a product R&D team of nearly 20 people in our Ningbo headquarters. More than 100 new products are developed every year with updated and improved designs. This ensures the uniqueness of our products meets the markets needs while attracting new and old customers alike.

Specialized Packaging

We specially design our packaging marks to match different markets around the world. Our international team ensures our packaging aesthetics will fit perfectly for markets in Europe, America, or any other.

ROLLINGDOG® STANDARD PERFORMANCE

ROLLINGDOG® ELITE PERFORMANCE

Product positioning

We have developed two sub brands which correspond to different customers; standard level and Elite level

Elite Level- Premium tools made with high end materials and professional grade designs. Most suitable for higher price point markets with professional customers.

Standard level- High quality tools made with more price oriented materials to meet lower price points. Great fit for DIY and more economical and practical tool ranges.

Websites directly related to each sub brand

ROLLINGDOG has a site dedicated to each sub brand, and will also help to create local websites for customers dedicated to selling our brand in their market. Included on our websites are our product usage videos. These videos will also be linked to a QR code on product packaging so end users can see how the product is used while in the store to help them consider purchasing.

Offline Exhibitions:

For offline exhibitions, we will participate in Guangzhou, Shanghai, Germany, the United States, Brazil, the Middle East and many other exhibitions every year.

Promotional gift items:

We offer gifts with customers' order, such as high-quality display shelf with brand LOGO, hats with brand LOGO, T-SHIRT , product promotion boards.
